Legislative Counsel’s Digest:

Existing law imposes various requirements concerning the retention, maintenance and disclosure of health care records, including the patient or client records of a psychologist. (NRS 629.051-629.069) Existing law provides that a mental health professional involved in a program of education for certain mental health professionals approved by the Board of Psychological Examiners is not required to retain a recording of the provision of mental health services by a psychologist to a patient if: (1) the recording is used for a training activity; (2) the patient has provided informed written consent to the use of the recording in the training activity; (3) destroying the recording does not result in the maintenance of incomplete patient records; and (4) the recording is destroyed after a period of time prescribed by the Board. (Section 2 of Assembly Bill No. 366, chapter 367, Statutes of Nevada 2021, at page 2191 (NRS 641.2291)) **Section 1** of this regulation defines the term “training activity” and interprets the term “recording” for those purposes. **Section 1** prescribes: (1) the information that must be included on a form on which a patient may provide informed consent to the use of a recording for a training activity; (2) requirements concerning the maintenance of such a form and the maintenance of a recording used for a training activity; and (3) the period of time after which a recording used for a training activity must be destroyed. **Section 2** of this regulation makes a conforming change to indicate the proper placement of **section 1** in the Nevada Administrative Code.
