Directions:

To receive accommodations for the Psychology licensing examinations an applicant with a specific disability must submit documentation of their disability that qualifies them for accommodations. The documentation should provide a request for specific accommodations <u>and</u> test results or other evidence of functional impact that support the need for the accommodation.

Practitioners are referred to the Nevada Psychology Board's documentation requirements (to be provided by the applicant) and to the <u>Educational Testing Service (ETS) guidelines</u>. It is important to note that a diagnosis that qualifies for accommodations must rise to the level of significant functional impairment relative to the average person in the general population.

Please answer the following questions and provide supporting documentation. For each question below you have the option to provide and refer to an attached addendum, letter, or evaluation.

1. Please describe your training in assessment, diagnosis or remediation of the referenced disability that qualifies you to make a diagnosis, assess functional impairment and make recommendations for accommodations:

2. Describe the nature and severity of the applicant's disability and how this <u>currently</u> affects the applicant's ability to take the examination, with a focus on the functional impact or limitation resulting from the specific disability:

- 3. When was this disability first diagnosed and by whom?_____
- 4. When did you conduct your evaluation of the applicant?______
- 5. Describe the methods you used to diagnose and assess the applicant's disability and its impact on their functioning, with particular attention to the affect the disability has on taking exams under standard testing conditions:
- 6. Describe the results that support your diagnosis and conclusions regarding functional impairment relative to the average person in the general population. Include the applicant's self-reported deficits <u>and</u> objective or collateral evidence of signs, symptoms and functional impact.
- 7. Do you believe the applicant's motivation level, interview behavior or test-taking behavior was adequate to yield reliable conclusions regarding diagnosis and functional impact? Please explain your answer.
- 8. If the applicant has no history of testing accommodations, please explain in detail why no accommodations were used in the past and why accommodations are needed now:
- 9. List your recommended testing accommodations, supporting diagnosis, and test results or history to support the accommodations:
